

Innovative coverings for walls and ceilings

clipso building®

Why choose Clipso® ?

Ideal for renovation and decoration purposes, CLIPSO® is a stretch ceiling designed to provide you with high-level solutions, ensuring both an aesthetic impact and maximum comfort. With CLIPSO®, redoing your ceiling is quick, easy and problem-free.

CLIPSO® is quite simply innovative!

The CLIPSO® ceiling is a real revolution, a state-of-the-art product. Its design and installation are completely revolutionary, and CLIPSO® offers an unsurpassed level of resistance and unparalleled quality.

- Up to 5.10m wide, with no seams or joints.
- Rapid installation, with no odour or waste.
- Installation takes place at normal temperature, with no need to move the furniture.
- The CLIPSO® covering can adapt to all forms and dimensions.
- The CLIPSO® ceiling provides improved sound-proofing.
- The covering is washable, and can be painted.
- The CLIPSO® covering is PVC-free, resistant, M1 category and guaranteed for 10 years.
- Rapid, simplified measurements are made, so you have an immediate quote.
- The covering can be installed all in one go, and causes no inconvenience.

- There's no need to move your plants and furniture and have your home in a complete mess for a few days.
- The adjustment system guarantees perfect uniformity and even stretch.
- The covering's state-of-the-art composition is ideal for the installation of spotlights, lights, and all types of decorative or technical items.
- The covering is waterproof and chloride-resistant. It is particularly suitable for bathrooms, swimming pools and health spas.
- CLIPSO® is the ideal solution both for renovation purposes and for new constructions; it adapts to all styles and all situations.
- Coverings compatible with ALUMINIUM, ABS, PVC profiles, etc.

Noise absorber, soundproof Clipso Design®

Translucent

Listen, it couldn't be better! Today, the greatest luxury at home and at work is the acoustic comfort and quality of our surroundings. After several years of intense research, CLIPSO® has developed CLIPSO ACOUSTIQUE®. The 250 000 micro-perforations per m² in the CLIPSO ACOUSTIQUE® covering plus a specifically adapted sound absorber (glass wool, rock wool, etc.) ensure that up to 90% of the surrounding noise is eliminated (conversation, music, etc.). The perfect combination of comfort and aesthetics!

CLIPSO® incorporates cutting-edge technology and digital printing (in millions of colours), which allowing you to decorate walls and ceilings in new and renovated buildings with images from the CLIPSO DESIGN® collection or with any other image of your choice.

All the motifs are printed with our translucent 705 Back Light equipment, which allows 53% light transmission!
